

## Chief Public Health Officer Update:

Good morning,

Yesterday, the first of our community vaccination clinics began in Igloolik and Gjoa Haven and another will start in Arviat and Cambridge Bay on Thursday. I commend the hard work health staff have done to organize and execute these clinics.

I want to recognize all Nunavummiut who have taken the opportunity to receive their vaccination. It is our best protection against COVID-19. Since announcing the vaccine's arrival in Nunavut, we heard concerns from some communities regarding the safety of the vaccine. In response, we held community call in shows to give those who were hesitant a chance to ask questions. I want to thank all those who took the time to ask questions and learn about the vaccine so they are comfortable rolling up their sleeve.

I will tell everyone watching today the same thing I told Nunavummiut who called into those shows, the vaccine is safe and has been extensively tested. I can tell you between the vaccinations in those communities and at the long-term care centre in Iqaluit, we have not seen any serious adverse reactions.

Now that we know that a vaccine shipment of 6000 doses will arrive the week of February 15, we have moved ahead with additional clinic planning. On January 18 we will begin vaccinating priority groups in Iqaluit. Starting with elders 65 and over as well as anyone living in a shelter. We will be doing this by appointment. People in the priority grouping can call Iqaluit Public Health 867-975-4810 for an appointment. Clinics will be held at Iqaluit Public Health, building 1091, on Monday, January 18 to Friday, January 22 from 1 p.m. to 7 p.m. and Qikiqtani General Hospital clinics side Saturday, January 23 from 10 a.m. to 4 p.m.

I know other communities are eager to know when they will be scheduled for vaccination clinics and we plan to release additional clinic dates in the coming days.

It has been more than two weeks since the last active case was reported in Whale Cove and Arviat. Public health restrictions in both communities have been eased. We are not yet at a point that we can declare the outbreak over, but we do believe it is safe to resume some activities. This includes an increase in gathering sizes and a return to a combination of remote and in-school learning. Daycares can also open with enhanced cleaning protocols. I know some have expressed concerns at re-opening the schools at this point. This is understandable, however evidence shows that schools can open

according to the safety protocols in place. Reducing the unintended consequences that COVID-19 restrictions can have, especially on young Nunavummiut and their learning is as important as following the public health measures that aim to reduce the risk of COVID-19.

Thank you.

## Department of Human Resources Services

---

GN offices in Arviat and Whale Cove will open to the public on January 13, 2021.

Government of Nunavut (GN) employees in Arviat and Whale Cove are returning to their GN workplaces on January 13, 2021. GN employees in all other communities returned to work on December 2, 2020.

In support of a safe and healthy workplace, and in partnership with the Chief Public Health Officer (CPHO) and the Worker's Safety and Compensation Commission, the GN has developed answers to questions about returning to work, a contact list, checklists for both employees and supervisors to assess and align their GN workplace with COVID-19 health and safety protocols and COVID-19 health and safety posters in all official languages.

## Department of Education

---

### K-12 Schools

Based on the direction of the Chief Public Health Officer, as of Tuesday, January 12, 2021, schools in the communities listed below can move to the following stages:

- Arviat and Whale Cove – Stage 3
- All other Nunavut schools – Stage 2.

Updates on community stages can be found on the Department of Education website:  
<https://gov.nu.ca/education/information/2020-21-opening-plan-nunavut-schools>.

### Stage 3 - Arviat and Whale Cove

Schools in Arviat and Whale Cove can open on Tuesday, January 12, 2021.

- It is expected that there may be a transition period to prepare for the return to school for students and staff.
- **Elementary** school students in Arviat and Whale Cove will have a blend of in-school and remote learning. Students will attend school **three** days per week. Specific schedules will be determined by each school's Stage 3 action plan.
- **Middle and high** school students in Arviat and Whale Cove will have a blend of in-school and remote learning. Students will attend school **two** days per week. Specific schedules will be determined by each school's Stage 3 action plan.

### Early Learning and Child Care

As of Tuesday, January 12, 2021, child care facilities in all Nunavut communities, including Arviat and Whale Cove, can open under current health and safety guidelines and measures.

### Financial Assistance for Nunavut Students (FANS)

As of Tuesday, January 12, 2021, the Financial Assistance for Nunavut Students (FANS) office in Arviat will be open to employees under current health and safety guidelines and measures.

FANS employees are continuing to provide services including:

- Processing funding applications.
- Travel requests.
- Issuing payments.
- Responding to inquiries.

All inquiries to FANS should be emailed to [fans@gov.nu.ca](mailto:fans@gov.nu.ca). Response times may be slower than normal during this transition.

Nunavummiut's health is our shared responsibility! Remember: wash your hands and surfaces, practice social distancing, listen to the advice of health officials, and stay home if you're sick.
